

Linville Hill's high school is built on the following five pillars:

- **Real World Experience** – one day each week each student will partner with a local business, organization or ministry for exposure to real-world occupational situations
- **Practical Instruction in Finance**—students will receive hands on instruction on how to navigate the world of finances wisely. Budgeting, spending, saving, credit, giving will be among the topics
- **Dynamic Faith Opportunities** – central to education is faith, biblical understanding, worship, values, character, prayer and service. Each will receive concentrated focus
- **Kingdom Worldview Emphasis** – all living becomes centered on the Kingdom of God where we live as his disciples and expand his life in ourselves as well as the setting he places us in
- **Thoughtful Co-Curricular Programs** – visual and performing arts, sports, music and athletics will be included to provide outlets for creative expression, performance and competition

9th and 10th grades will be added for the 2016-17 academic year. An additional grade will be added each of the following two years.
